Subject: Important Info about Accessing PASS
Attachments: powerphplist.png

To increase the security of our PASS system (for checking student grades online), we have changed the student's PASS PIN to his or her current network password. In the past, we were limited to three digit PIN's, but the software now allows for longer, more secure PINs. Protecting the private grade information of your children is very important to us, which is why we decided to change the PASS PINs immediately.

We will be sending the new PIN by mail. We understand there might be a lag time between changing the passwords and when the letter arrives, and that you might not be able to access PASS during that time. We apologize for this inconvenience, but taking actions that increase the privacy of your child's information is our priority.

Most students already know this password from logging in to either the school network or their school web lockers.
