Academic Success-

Village Christian Family, this message is another in our efforts to communicate to you some of the amazing things that are happening at VCS. God has blessed us with bright, hardworking students and talented, committed faculty. This exciting news is evidence of that.

VCHS SAT scores are at an all-time high—the average SAT scores for the class of 2010 were a combined **1587**. The class of 2009 had an average of 1534 and the class of 2008 had an average of 1527, compared to the state average of 1511 and the national average of 1512. The SAT is the most common college admissions test.

In related news, the percentage of Village Christian High School graduates attending four year colleges and universities is also at an all time high. Since 1994, the average percentage of graduates attending four year schools is 58%, **72% of the class of 2010** will be attending four year colleges and universities this fall.

Village Christian High School students passed **66%** of the Advanced Placement exams they took this spring, a percentage close to the highest all time passing rate. The US History, European History, Studio Art (Drawing), and Environmental Science classes all scored the highest passing rates for their exams in school history. Fifty-seven English Literature and Composition students passed the exams, which is the largest number of students to pass a single exam in school history. AP students and teachers all worked very diligently all year long to achieve these remarkable results.

Celebrate with us as we thank God for the incredible work of our students and faculty.
