Educational, Service, Arts or Athletic Trip Proposal

Keeping the 21st century skills in mind, educational travel is an excellent environment to instill these abilities in our students. Global Awareness, Critical Thinking, Collaboration, Communication, and Creativity are all enhanced in the real life experiences that student travel can provide. These learning experiences outside the classroom are valuable teaching tools we can utilize in bringing subject matter to life for our students and staff, generating excitement and a desire to become life-long learners; Also better preparing them for college and beyond.
